MEDIA BUZZ:

VIORA *Life*

|| I couldn't believe how fast my treatments were or how comfortable. This was a great experience. I didn't have to diet at all, and I still went down a pant size. **||**

R. S., 56 YO

POPULAR TREATMENT AREAS:

V-FORM YOUR QUESTIONS ANSWERED

- What is a V-FORM treatment?**
 V-FORM is a non-invasive, safe, effective device combining the use of radiofrequency (RF) energy and vacuum to provide improvement of local blood circulation and cellulite reduction.
- How does V-FORM work?**
 The RF energy with vacuum mechanism provide simple and comfortable and resemble a deep tissue stimulation combined with gentle suctioning of the skin.
- What areas can be treated?**
 V-FORM can be used to treat those body parts you're most looking to treat (stomach, buttocks, thighs), as well as hard-to-treat areas like underarms and inner thighs.
- How long do treatments take?**
 With the largest treatment applicator available, your V-FORM treatments are the fastest around. Depending upon the body part and specific treatment being done, your sessions can be between 15 - 20 minutes.
- How many sessions are needed?**
 Each treatment course depends upon the body part and specific treatment being done. Recommended number of sessions is an average of 3-8 sessions.
- Is the treatment safe?**
 With unprecedented safety features, V-FORM delivers safe and effective treatments.
- Is the treatment painful? Or how it feels?**
 Thanks to the controlled RF energy delivery the treatment is totally pain-free. During the treatment you will feel a pleasant heat sensation followed by vacuum massaging. The system equipped with range of RF and vacuum levels to fit its intensity for each patient individually.
- Following a treatment when can I resume my daily activities?**
 V-FORM treatments are completely non-invasive with no anesthesia necessary. There is no downtime at all and following Viora's RF body treatment you can continue your usual routine directly upon leaving your treatment session.

OUR TECHNOLOGY GOES DEEP

Our Vacuum Boost allows for deeper tissue penetration and increased blood circulation.

Multi-CORE™ technology offers complete depth control across larger treatment areas for shorter treatment times.
